WHO WE ARE

# ONE FACTORY. TWO DEVICES. MADE PROPERLY.

Desbro Biosciences Private Limited manufactures skin staplers and skin staple removers at its own facility in Kukatpally, Hyderabad. We do one thing, wound closure for the skin, and we hold the licence and the quality certification to do it.

SKIN STAPLER

# SMART STAPLER™

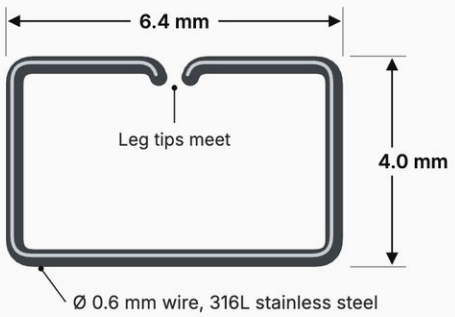

**35W**

35 WIDE STAPLES

A sterile, single-use skin stapler preloaded with 35 stainless steel staples, for closing skin incisions and lacerations.

- Angled head with an alignment indicator, so the staple line stays visible
- Pre-cock action: position the staple before it is formed
- Counter window shows staples remaining
- Slim grip with balanced weight
- Staples form to a closed rectangle that resists rotating in the skin

**Formed staple** — FRONT VIEW · NOT TO SCALE

| WIDTH | HEIGHT | WIRE |
|---|---|---|
| **6.4 mm** | **4.0 mm** | **Ø 0.6 mm** |

**Specification**

| | |
|---|---|
| Model | 35W (wide) |
| Staples per device | 35 |
| Staple material | 316L stainless steel |
| Wire diameter | 0.6 mm |
| Sterilisation | Ethylene oxide (EtO) |
| Use | Single use, disposable |
| Shelf life | 3 years |
| Unit pack | Sterile blister pack, Tyvek paper backing |
| Box | 100 units (with 10 smaller boxes) |
| Device class | Class B (India) |
| Licence | MFG/MD/2025/000200 |

FOR USE BY TRAINED HEALTHCARE PROFESSIONALS. FOLLOW THE INSTRUCTIONS FOR USE.

SKIN STAPLE REMOVER

# SMART REMOVER™

Our smart skin staple remover can be used for taking out skin staples once the wound has healed. Supplied alongside the Smart Stapler or on its own.

**How it works**

01 Slide the lower jaw under the centre of the staple.

02 Squeeze the handles fully. The staple bends open and its legs lift out of the skin.

03 Lift the staple away and release it.

- Scissor-style handles for a controlled grip
- Stainless steel jaws
- Works with skin staples of other brands

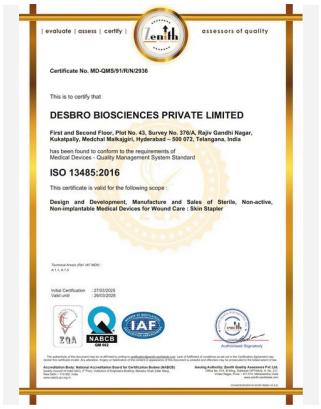

**Specification**

| | |
|---|---|
| Type | Scissor-style, plastic handle |
| Material | Stainless steel jaws, PVC handle |
| Dimensions | Length 4.2 in |
| Sterility | Non-sterile (can do sterilization on request) |
| Shelf life | 3 years |
| Unit pack | Individual pack |
| Device class | Class A (India) |
| Licence | MFG/MD/2025/000200, Endorsement No. 1 |

**Smart Remover**
Individual pack · 20 per inner box · 200 per regular carton · master carton customised to your order

PRIVATE LABEL AND CONTRACT MANUFACTURING

# YOUR BRAND. OUR FACTORY.

We manufacture skin staplers and staple removers for other brands. The device comes off the same line, under the same licence and the same ISO 13485 quality system, with your name on it.

### What you can change

- Brand name and logo printed on the device
- Pouch, box and carton artwork

### What stays the same

- Made at our licensed Hyderabad facility
- 35 staples per device
- Manufacturer details on the label as the regulations require
- Batch records and sterilisation records kept by us

### Who this suits

Importers and distributors who already sell surgical consumables under their own name and want a licensed source for skin closure, without setting up manufacturing.

### How it runs

01 You send your brand artwork and target volumes.

02 We send labelled samples for approval.

03 You sign off the artwork and the specification.

04 We produce, sterilise, pack and ship.

PRODUCTION FLOOR, HYDERABAD

NEXT STEP

# LET'S START THE CONVERSATION.

Tell us your market, the volumes you have in mind and whether you want our brand or yours. We reply with a specification sheet, a quotation and samples if you need them, and work out the rest with you.

01 Send your enquiry by email or WhatsApp.

02 Receive samples and the document set.

03 Agree price, quantities and delivery terms.

04 Confirm the order. We produce and dispatch.
